Work Experience

Tekion Corp Lead Product Designer / July 2020 - Present

Leading the Fixed Operations design team. My work involves designing the interfaces for Technicians and Service Advisors at dealerships but not limited to that. I have worked on a few core modules of Tekion's DMS including Multi Point Vehicle Inspection, OEM Warranty Integration, Repair Order and appointment scheduling.

Mobisoft Infotech Principal UX Designer / Jan 2017 - July 2020

Led design for various projects from the healthcare and logistics domain. Ran a stakeholders workshop for Lanter Delivery System and designed their Warehouse management and scanning solution. Worked on an accessible shuttle booking solution for the University of Illinois. I've also got an opportunity to work on various consumer facing products including for Farmacias Del Ahorro and Mira Showers. I was chosen as the Most Valuable Player of the company in Jan 2020.

Talkd. Pvt Ltd Application Experience Leader / Apr 2015 - Dec 2016

Worked as an interaction designer on MyKukun project, designed workflows for house remodelling estimation. Led the design and development team for iCRM product, used by Talkd business development team for lead generations and management purposes.

Infosys Ltd. Operations Executive / July 2012 - Apr 2015

Started my journey as a front end developer, later transitioned into the product design team in the Computer and Communication Division. Designed various intranet applications including Asset Management and Electronic Separation.
