Work Experience

Innovaccer Designer III / June 2021 - Present

Designing a point-of-care solution for providers in the USA. Leading a design team with a focus on better quantitative outcomes. I own entire experience from design ideation and engineering hand-off to measuring outcomes.

Tekion Corp Lead Product Designer / July 2020 - June 2021

Led Fixed Operations design team. My work involved designing for Technicians and Service Advisors at dealerships.

Mobisoft Infotech Principal UX Designer / Jan 2017 - July 2020

Worked on various consumer-facing and B2B products including Kohler and Farmacias del Ahorro. Shipped many mobile and web products in different markets across the world. I was the MVP of the company in 2020.

Talkd. Pvt Ltd Application Experiences Leader / Apr 2015 - Dec 2016

Designed for various seed startups. Helped MyKukun with their design workflows for house remodelling estimation.

Infosys Ltd. Operations Executive / July 2012 - Apr 2015

Started my journey as a tech support engineer. Later transitioned into the design and front-end development. Designed and developed various internal reporting dashboards, apps and emailers for Computer and Communication Division group.
